

List of the Registered Service Providers for the Provision of Technical Services Related to Radiation Safety in the UAE

- Please note that entities providing deliverables related to radiation safety according to FANR-REG-30 “Regulation on Technical Services Related to Radiation Safety”, which are listed here down in the **Table 1** “*Services in radiation safety*”, FANR finds fit for demonstration of compliance with FANR requirements.
- The below list in the **Table 1** is subject to change according to the decision taken by FANR related to either the service provider’s performance or FANR’s decision to license or register the service provider of a specific service listed in FANR-REG-30.
- FANR reserves the right to make a regulatory decision based on the evidence provided by the entities in **Table 1** during the regulatory process.
- Customers of service providers in radiation safety must ensure that the contracted service providers are listed in **Table 1** to avoid having difficulties to demonstrate compliance with FANR requirements.
- From 1st December 2023, FANR will NOT consider in its regulatory process deliverables from existing service providers in radiation safety that do not listed in **Table 1**.
- Customers of services providers may continue to use deliverables from the same service provider in FANR regulatory process in the case of having valid contracts with the service provider that extends after 1st December 2023 condition to receiving a formal approval from FANR to do so.
- Customers of services providers’ deliverables from abroad may continue their practice until further notice from FANR condition to the service provider registered with FANR, and commenced transfer of the service to the United Arab Emirates before 01 July 2023.
- If you are a licensee/registrant that contracted service providers from the below list in **Table 1** in order to demonstrate compliance with FANR requirements, please be informed that the list of Registered Technical Service Providers and their associated scope of provision of services is currently under assessment. FANR will ensure you are timely informed about possible modification in provision of service for the service provider you may have contracted.

Table 1: Services in Radiation Safety

Company Name	1. Radiation safety consultancy			2. Maintenance services			3. Measurement and evaluation of Dose to Worker or member of the public		4. Calibration and testing	5. Remediation services	6. Medical physics services	7. Radiation measurement services
	a) Planning and modification of the conduct of a Regulated Activity.	b) Commissioning and Decommissioning of a facility	c) Performance audit of a protection and safety programme	a) Verification of Radiation Sources fitness for use	b) Preventative and corrective maintenance of Radiation Sources	c) Installation and repair of a Radiation Sources	a) External individual dosimetry service	b) Internal individual dosimetry service	Calibration and testing of radiation measurement devices	Decontamination and conditioning of Radioactive Material and equipment	Performance audit of a medical exposure programme	Measurement of Ionising Radiation in the environment and commodities
Abu Dhabi Quality & Conformity Council Purpose: Non-Medical Email: info@gcc.gov.ae												✓
Al Ain Hospital Purpose: Medical Email: wshamsi@seha.ae	✓		✓	✓								
Al Dhafra Hospitals Purpose: Medical Email: halmansouri@seha.ae	✓			✓								
ALYTECH Middle East FZE Purpose: Non-Medical Email: alytech@alytechme.ae					✓	✓						
Ambulatory Healthcare Centers (SEHA) Purpose: Medical Email: fanrteamAHS@seha.ae	✓											
American Hospital Dubai Purpose: Medical Email: ceo@ahdubai.com	✓	✓	✓							✓	✓	
Bauer Emirates Environment Technologies & Services LLC Purpose: NORM Email: bre.middleeast@bauer.de	✓	✓	✓							✓		✓
Business Communications LLC Purpose: Non-Medical Email: info@dutcotenant.com					✓	✓
